Skills

Web Technologies/ Languages

JavaScript, Python

Frontend

React.js, Redux, Bootstrap, Tailwind CSS, Next.js, HTML5, CSS3

Backend

Node.js, Express.js, JWT Authentication, MongoDB, SQL, REST APIs

Databases

MongoDB, SQL

Tools, Deployment & AI

Git, GitHub, Postman, VS Code, Vercel, Render, n8n, AI Integration

Frontend Expertise

Responsive Design, Performance Optimization (Lazy Loading, Code Splitting), API Integration, Component Architecture

Certifications

Front-end Development

AlmaBetter

Jan 2026

Certificate

The Complete Full-Stack Web Development Bootcamp

Udemy

July 5, 2025

Certificate

Interests

AI & Automation

Learning New Technologies

UI/UX Design Exploration

Web Performance Optimization

Summary

Frontend Developer with 1+ year of experience building responsive, high-performance web applications using React.js and Next.js. Skilled in crafting intuitive user interfaces, optimizing frontend performance, and implementing modern UI/UX practices. Experienced in integrating REST APIs and delivering scalable, production-ready applications.

Experience

AlmaBetter

Full Stack Developer (Trainee)

July 2025 to Present

- Built and deployed MERN applications with authentication, CRUD, and state management
- Designed scalable REST APIs, improving performance
- Developed responsive UI using React.js & Tailwind CSS
- Implemented n8n automation workflows with webhook integrations
- Used AI tools (Copilot, ChatGPT) to improve development speed
- Deployed apps on Vercel & Render with proper environment configs

Manoj Pvt. ITI Institute

Office Administrator (Operations & Technical Support)

Feb 2022 – Apr 2025

Rohtas, Bihar

- Managed web-based portals (Skill India, NCVT MIS) for student data and institutional workflows.
- Validated and processed large datasets ensuring accuracy and compliance.
- Diagnosed and resolved system issues, login errors, and portal-related problems.
- Generated reports using structured Excel data for tracking performance and attendance.
- Provided technical support, system setup, and maintained digital documentation.

Education

Woolf University

Master of Science in Computer Science (Cloud Computing)

July 2025 – Present

Aryabhhatta Knowledge University

B. Tech. in Electrical Engineering

September 2017 to November 2021

7.41 CGPA

Projects

ShopVerse (Full Stack E-Commerce Platform) November 2025 -March 2026

[GitHub Link](#) [Live Link](#)

- Engineered a scalable e-commerce platform with product, cart, and order management.
- Implemented JWT-based authentication and role-based authorization.
- Built optimized backend APIs with validation and efficient database queries.
- Designed modular architecture for scalability and maintainability.

Entertainment App (Full Stack Media Platform) December 2025 – March 2026

[GitHub Link](#) [Live Link](#)

- Developed a full-stack media platform with dynamic content browsing and user personalization.
- Implemented authentication and protected routes for secure access.
- Built responsive UI and optimized performance using lazy loading techniques.
- Designed REST APIs for seamless frontend-backend communication.

AI-Powered Document Orchestrator

February 2023 – March 2023

[GitHub Link](#) [Live Link](#)

- Built an AI-powered document processing system integrated with n8n for workflow automation.
- Implemented webhook-based automation workflows for real-time task execution.
- Designed pipelines for document ingestion, processing, and orchestration.
- Integrated AI APIs for summarization, classification, and data extraction.
